

Getting Inspired with Signature

At Signature Blinds we have a vast range of conservatory blinds, plantation shutters, awnings and bespoke blinds.

It is our objective to provide our customers with quality products at affordable prices, with customer service being our number one priority.

We offer a free home design service where one of our local designers can take you through our range to find the most suitable solutions for you and your home.

All of our products are manufactured to our customers exact requirements with exceptional attention to detail and all include full signature guarantee.

Signature is a 100% Irish owned and operated company, our friendly staff have many years experience in the blinds industry in Ireland. Enjoy browsing our brochure and feel free to give us a call on 01 8991945 and take advantage of our free advice.

Craftsmanship and finish are important elements to consider when deciding what you want for your home, as well as the design or layout to suit your windows.

The advantages of interior shutters are many, not least the ability to control light levels whilst maintaining privacy and protecting the contents of your room from direct sunlight

Another key benefit is ventilation, as the louvres allow air to flow freely through the room, although due to the magnets that hold the shutter doors in place they are unlikely to blow open even in a strong breeze.

Our professionally made and installed conservatory window blinds create the perfect ambience, providing you with an attractive and comfortable conservatory you can enjoy all year round.

We have various models of blind to suit any window, most of these blinds can be neatly recessed into the window frame giving a stylish look which is also extremely practical.

We include a *free* adjustable pole for operating blinds fitted to any awkward to reach windows.

The newest addition to the range,

the Stunning Varisheer

The Signature Varisheer is the latest edition to our range of blinds. It is a blind that has its own unique way of operating.

The unique system operates by rotating the fabric down to the bottom bar and then back up again so as the parallel sections of the fabric pass each other which in turn allows control of more or less light as desired. When the blind is pulled up it sits neatly in its own cassette box. All the fabrics in the range are made from 100% polyester and they can be cleaned using a damp cloth and being so versatile can be also used in kitchens and bathrooms.

Roller Blinds

Express your style with a signature touch. Our Roller Blinds offer a choice of style and sophistication never seen before. A rainbow of colours, a multitude of materials and a whole array of patterns, textures and finishing options are all available to our clients.

Vertical Blinds

Vertical blinds have been designed to bring you closer to the outside world. The long elegant panels let in vast amounts of light, and enhance any room with a welcome sensation of space, as well as a great view.

Enquire about our new range of rigid PVC verticals which exclude the need for bottom chains.

Wood Venetian

Create light control and privacy with this design classic.

Signature Venetian Blinds offer you the ultimate in light management and privacy. Our vast range of colours and fabric ladders will surely cater for your shading requirement.

Panel Blinds

Stylish, modern & versatile made to measure Panel Blinds. Available in a Range of Colours & Fabrics. These blinds are ideal for large windows, offering both style and privacy along with ease of use.

We also have a range of dim out fabrics to control the amount of daylight coming through your windows.

Woodweave Blinds

Natural Woodweave Blinds are made from specially selected wood products.

Woodweave blinds are an alternative and natural option to man made material blinds such as roller blinds, venetian blinds and roman blinds to name but a few.

Aluminium Venetian Blinds

Aluminium Venetian blinds offer a versatile and stylish way to filter or cut out light from your room. Functioning in the same way as traditional wooden venetian blinds, however the aluminium version is a more affordable solution with a wider range of colours available.
